Total	1056	393 (37)	574 (54)	89 (8)	1052	416 (40)	545 (52)	90 (9)	711	228 (32)	417 (59)	66 (9)	711	228 (32)	417 (59)	66 (9)

Note. Participants were categorized as correctly identifying their state's HIV case surveillance policy if they answered yes to the question describing the appropriate HIV case surveillance policy and no or "don't know" to questions describing other policies. Numbers may not add to totals because of missing data. Row percentages may not add to 100 because of rounding.

MSM, men who have sex with men; HRHs, high-risk heterosexuals; STD, sexually transmitted disease; IDUs, injection drug users; NEP, needle exchange program; dash indicates data not included.
